Expanding Rural Mobility with QRyde & Iowa DOT

Key Highlights

To address Iowa's rural transportation challenges, the Iowa Department of Transportation (Iowa DOT) partnered with QRyde to build a modern, statewide mobility solution. The result: a white-labeled, DOT-branded digital platform that connects Iowans with on-demand and shared transportation services through a single, intuitive interface.

Key Highlights

- **White-Labeled Platform** : QRyde powers iadot.qryde.com, a DOT-branded portal for Ride Searches across Iowa.
- **Advanced Search Engine** : Advanced algorithms match ride requests with vehicles based on location, timing, and provider availability.
- **Multi-Provider Integration :** Connects transit agencies, nonprofits, private operators, and volunteer programs for seamless, statewide coordination.
- **Supports Vanpools & Flexible Rides :** Designed for scheduled and on-demand trips—ideal for workforce, healthcare, and rural mobility needs.
